Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 16-20 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 16-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Stellenberg et al., USPN 7,134,143 B2 (hereafter referred to as Stellenberg).
4. Regarding claims 16 and 20, Stellenberg taught a system(a method) for packet classification (abstract), comprising:
 - a pre-processor configured to receive a packet header of an incoming packet, the packet header including a field, and to assign an associated identifier to the field (column 18, lines 9-21);
 - a first memory device, the first memory device including a first set of binary patterns (column 14, lines 24-29);

a second memory device, the second memory device including a second set of binary patterns, the associated identifier being selected from either the first set of binary patterns or the second set of binary patterns (column 14, lines 24-29);

a third memory device, the third memory device including instructions for processing each of the first set of binary patterns and the second set of binary patterns (column 18, lines 23-39); and

a processor configured to match the associated identifier with a corresponding pattern from either the first set of binary patterns or the second set of binary patterns using a range of values associated with each of the first set of binary patterns and the second set of binary patterns and to process the incoming packet in accordance with an instruction associated with a matched pattern (column 4, lines 52-64).

Regarding dependent claim 17, Stellenberg taught the field is a network address (column 18, lines 9-21).

Regarding dependent claim 18, Stellenberg taught further comprising: a fourth memory device, the fourth memory device configured to store a result corresponding to the matched pattern received from the processor (column 9, lines 27-35).

Regarding dependent claim 19, Stellenberg taught further comprising: means for determining priority among one or more matched patterns (column 18, lines 35-39).

Allowable Subject Matter

5. Claims 21-36 are allowed.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrice Winder whose telephone number is 571-272-3935. The examiner can normally be reached on Monday-Friday, 10:30 am-7:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vivek Srivastava can be reached on 571-272-7304. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
